1 page: Certificate of Transmission pursuant to 37 CFR 1.8.

2 pages: Response to Office Action pursuant to 37 CFR 1.111.

3 pages: Total transmitted via facsimile

This collection of information is required by 37 CFR 1.8. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 1.8 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

**RESPONSE TO OFFICE ACTION PURSUANT TO 37 C. F. R. §1.111**

Dear Sir:

This is in response to the Office Action in the above identified application dated August 19, 2005. The response is filed on behalf of the Applicants under 37 C. F. R. §1.34. Claims 1-10 are currently pending in the application.

**Response to Election/Restriction of Claims Pursuant to 35 U. S. C. §121**

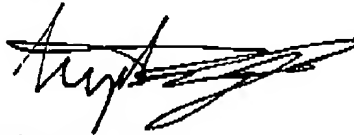

In the Office Action mailed August 19, 2005, Examiner has restricted Applicants to one of two inventions:

- I. Claims 1-5, drawn to composition, classified in class 526, subclass 88+.
- II. Claims 6-10, drawn to method, classified in class 526, subclass 171+.

Applicants provisionally elect invention I with traverse. Applicants traverse on the grounds that the composition and the method of using the composition are not patently distinct. Examiner cites use of the product as an adhesive. It is well established in the art of coatings and adhesives that a coating is not equivalent to an adhesive. Applicants composition is an excellent coating but the utility of the coating is that it is easily removed after curing, the antithesis of an adhesive. Applicant's coatings would not make useful adhesives. Applicants further argue it is not an undue burden to search the composition and its method of use.

Please charge any fees associated with this response to Deposit Account No. 18-1850. Applicants invite the Examiner to contact the undersigned to discuss any issues related to this application by telephone.

Respectfully submitted,

Dr. Stephen E. Johnson
